

MENTORING FOR ESD-LEADERSHIP PROGRAMME 2019

Project: Map of Tomorrow – Your City as Your ESD-Community

OBJECTIVES

- Train former international volunteers as multipliers in schools.
- Discover local transformation, make it visible on a map and turn learning into an adventure.
- Connect the local change community with formal education at school.
- Create opportunities for self-impact and social entrepreneurial experience.

MAIN ACTIVITIES

Project-weeks/afternoon-workshops to:

- Discuss urgent problems and visionary solutions.
- Map best practices online and design paper maps to print.
- Design small transformative projects by Design Thinking, Dragon Dreaming and Community Entrepreneurship.
- (Software development for online-tools)

(PEDAGOGICAL) APPROACH

- Constructivistic approach: emotions – reflections – actions!
- Self-directed learning: Pupils choose freely the problem and solution they want to work on.
- Excursions and trips to local pioneers of change.

CAPACITY BUILDING

How many people are reached?

Directly:
5 teachers, 30 pupils, 20 multipliers

Indirectly:
80.000 online-users of the map

What is the most important change you achieve through building capacity?

Students learn to build their community of change. Self-driven education enables them to be themselves, to live in resonance.

Project Responsible

Helmut Wolman

Target Group

Students, active as change makers in their cities (become multipliers in school), Pupils (age 15 to 18), Teachers and multipliers

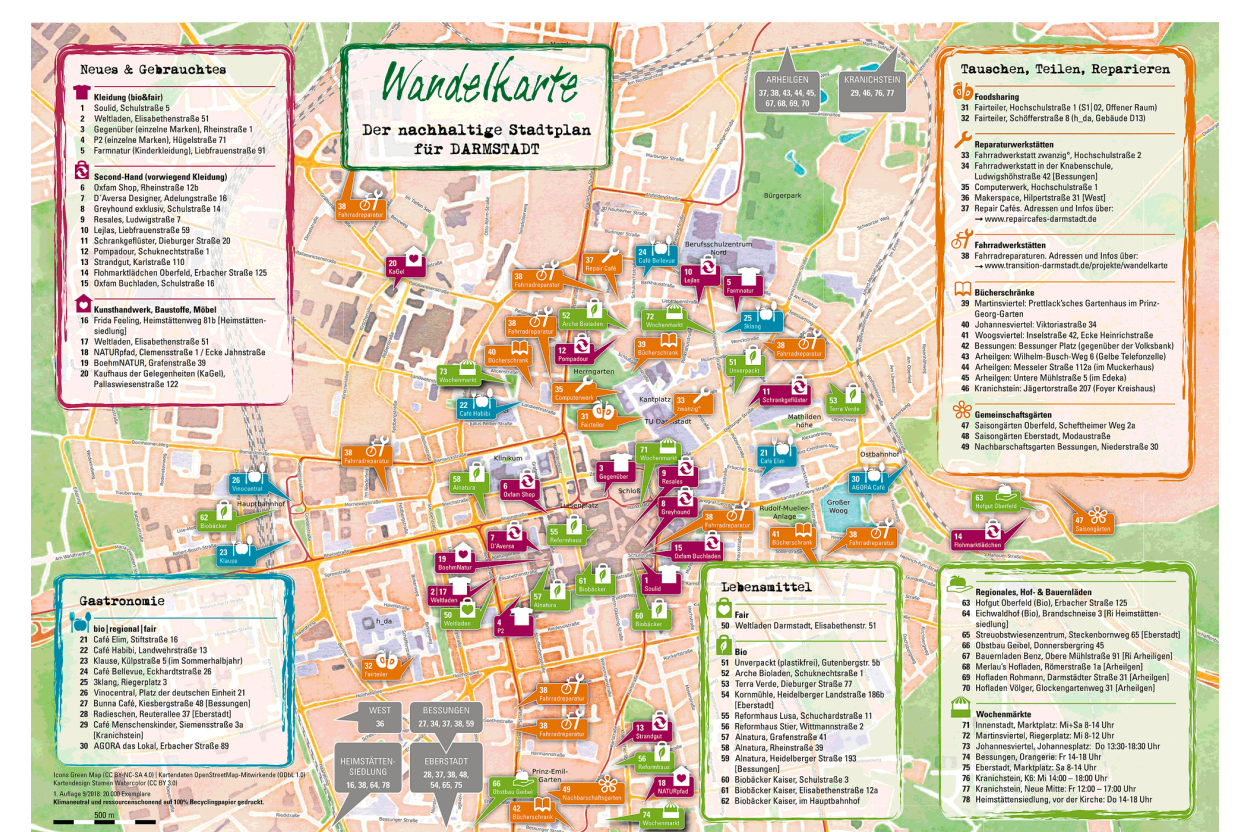

Duration of Project

March 2019 – 2020

Current Status

Implementation phase

Addressed SDGs
