June 2019 – February 2020

Current Status

Implementation phase

Addressed SDGs

OBJECTIVES

- Increase employability amongst youth of Gole Kuan in a sustainable manner.
- Building capacity amongst the target group to reflect, assess and act w.r. to the sustainability challenges in the area and continue to create solutions beyond the engagement of the project.
- Improve English language skills and increase the interest in and knowledge about sustainability.
- Build competences of critical thinking, problem-solving, cooperating and anticipatory thinking.

MAIN ACTIVITIES

- Story-telling sessions
- Workshops on waste segregation, composting and urban farming
- Improv-theatre based workshops
- Interaction with professionals from various fields through talks in the vocational training centre

(PEDAGOGICAL) APPROACH

- Engagement through theatre-based workshops
- Exploring ideas of leadership and action-based learning approach

CAPACITY BUILDING

How many people are reached?

Directly:
30 students (age 14-22, formal and informal)

What is the most important change you achieve through building capacity?

Broaden the perspective of the youth and instill in them a confidence to imagine their career possibilities differently as well as address the challenges of their area.
