

MENTORING FOR ESD-LEADERSHIP PROGRAMME 2019

Project: ECOLOGICAL REGENERATIVE CENTERS FOR EDUCATION IN SUSTAINABLE DEVELOPMENT

Santiago de Anaya, Hidalgo

OBJECTIVES

- Offer applied ESD to a local community.
- Consolidate the Ecological Regenerative Centre in Santiago de Anaya.
- Establish a curriculum of workshops and courses in Santiago de Anaya, Hidalgo.
- Gather funding to establish free open courses to community and students.

MAIN ACTIVITIES

- Give three open courses for local community.
- Establish and consolidate infrastructure for the centre.
- Start an apprenticeship programme.
- Offer five certification/diploma courses on permaculture and ESD.
- Start a fundraising campaign.

(PEDAGOGICAL) APPROACH

- Community-based co-designing of solutions.
- Reflection on practices and learning outcomes.

CAPACITY BUILDING

How many people are reached?

Directly:
100 people from community,
10 volunteers,
50 teachers & students

Indirectly:
10.000 people

What is the most important change you achieve through building capacity?

We have achieved a deep change in the way people perceive themselves and the relationship they have with the environment, reflecting in the actions and change of patterns concerning the means of consumption and production.

Project Responsible

Adolfo Acmed de los Santos Mendoza
