

MENTORING FOR ESD-LEADERSHIP PROGRAMME 2019

Project: Teachers as promoters of ESD

OBJECTIVES

- Promote the participation of school community in the construction of an environmentally responsible and sustainable society.
- Training teachers as multipliers of ESD and ESD competences.
- Improve schools and education through ESD values.

MAIN ACTIVITIES

- Pilot phase with one school (one short workshop with 3 sessions).
- One big workshop within the framework of the “Schools of Excellence Initiative” (six sessions).
- Register it as an SDG initiative.

(PEDAGOGICAL) APPROACH

- Training for trainers with ESD Methodology
- Location-based education
- Socio-emotional education
- Systemic thinking

CAPACITY BUILDING

How many people are reached?

Directly:
20 teachers (pilot phase),
10 schools,
70 teachers (Schools of Excellence Initiative)

Indirectly:
1.200 students

What is the most important change you achieve through building capacity?

Teachers become agents of change on an individual, community and social level.

Project Responsible

Brenda Suárez Álvarez

Target Group

Teachers (elementary education,
