

MENTORING FOR ESD-LEADERSHIP PROGRAMME 2019

Project: Earthchild Project Lavender Hill Eco-Explorers

Project Responsible

Etienne Jacques Basson

Target Group

Pupils (age 12-15)

Duration of Project

February 2019 – November 2019

Current Status

Implementation Phase

Addressed SDGs

OBJECTIVES

- Expose children from under resourced communities to explore natural spaces (gardens, parks) in their city through outdoor activities.
- Create awareness around important environmental issues facing society.
- Sharing information and resources about the social, economic and environmental value of natural spaces (gardens, parks) in their community and city.

MAIN ACTIVITY

- Outdoor exploratory session (hike) half a day per month

(PEDAGOGICAL) APPROACH

- Experiential Learning: Learning through reflection on doing
- Cooperative Learning: Learning through group work
- Peer Teaching: Learning by instructing others

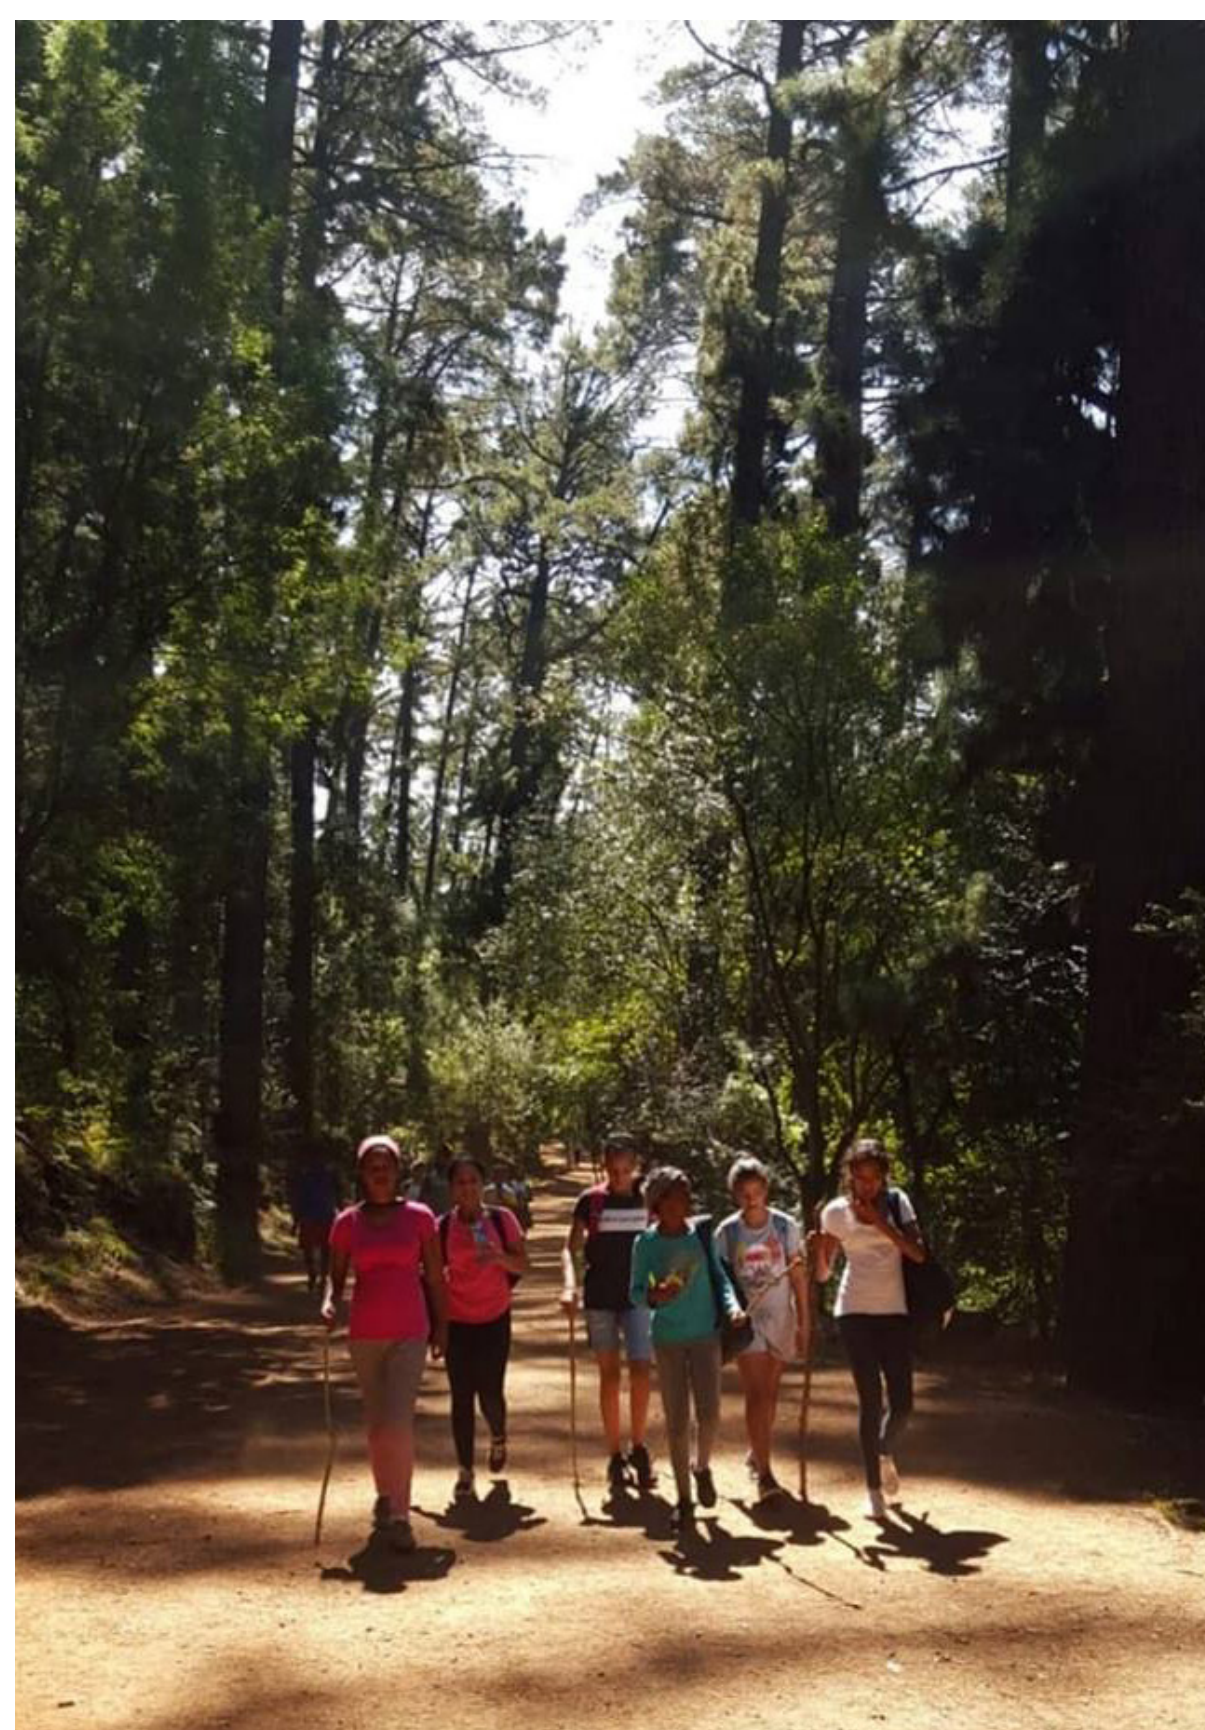

CAPACITY BUILDING

How many people are reached?

Directly:
25 pupils

What is the most important change you achieve through building capacity?

Environmental and emotional awareness.
Sustainable environmental actions in their school and broader community.
